

Payments & Treasury Technology - Organization, System Ownership & Engagement Directory

Who owns what across the Payments business unit, how to engage each team, and planning factors for estimation

Document ID	CNB-ORG-PTT-2026-06
Version / Status	2026.2 / Published (quarterly refresh)
Document owner	PTT Business Management Office (BMO)
Approver(s)	Gregory Hall, MD - CIO Payments & Treasury Technology
Effective / Last reviewed	Published 2026-06-15; next refresh 2026-12 (Q4)
Classification	INTERNAL - CONFIDENTIAL
Related documents	CBO-ARCH-WC-4.1; PPH-SYS-OVW-9.2; PNG-TDD-6.0; PRSP-HMS-3.4; ENS-INT-3.2; TDIP-CAT-2026.2

1. Purpose

This directory is the reference for system ownership, accountable leaders and engagement routes within Payments & Treasury Technology (PTT) and its first- and second-line partners. Product and engineering teams should use it to identify owners for dependencies, to raise demand through the correct intake route, and to apply the planning factors in Section 6 when sizing cross-team work. The directory is refreshed quarterly; organizational announcements issued between refreshes take precedence.

2. Leadership

Role	Name	Scope
MD, CIO Payments & Treasury Technology	Gregory Hall	All PTT engineering: channels, payments hub, networks, data
EVP, Head of Treasury Management Products	Danielle Okafor	Business owner, Treasury Management (TM) products incl. Crestline Business Online
Director, Digital Treasury Product	Marcus Chen	Product Owner, CBO Wire Center and Payments & Transfers
Director, Payments Platform Product	Laura Kim	Product Owner, PRISM Payments Hub; Business Data Owner for payment datasets
Chief Architect, Payments & Treasury	Nikhil Bose	Chair, Payments Architecture Review Board (ARB)
EVP, Chief BSA/AML Officer	Catherine Doyle	2nd line owner of financial-crimes policies incl. POL-FCC-014
Head of Model Risk Management	Jonathan Price	2nd line owner of MRM-POL-02 and model inventory
Chief Privacy Officer	Rachel Goldberg	Owner of DUS-07 Data Use & Client Confidentiality Standard

3. Engineering team directory (as of 2026-06-15)

Team	Leader	Key contacts	Jira / Slack
Digital Treasury Channels - CBO Wire Center squad	Anjali Deshpande (Director)	Tom Becker (EM); Lucas Ferreira (Tech Lead); Marcus Chen (PO)	CBO / #cbo-wire-center
CBO Platform & Entitlements	Nadia Haddad (EM)	Arjun Mehta (Tech Lead: SPS, CES)	CBO (Platform) / #cbo-platform
Payments Hub Engineering	Raymond Ortiz (Director)	Kevin O'Brien (EM); Sunita Rao (Principal Eng.); Laura Kim (PO)	PPH / #pph-support
Payment Networks Engineering (PNE)	Raj Malhotra (Director)	Brian Walsh (EM, Fedwire); Chen Wei (TL, Fedwire); Tomasz Nowak (Sr. Eng., gpi Connector)	PNG / #payment-networks
Global Transaction Services Integration (GTSI)	Elena Vasquez (Director)	Omar Siddiqui (EM); Hannah Lindqvist (TL) - CHIPS connector, nostro reconciliation integration	GTSI / #gtsti-crossborder
Financial Crimes Technology - PRSP	Victor Petrov (Director)	Grace Mensah (EM); Daniel Kowalski (TL, Hold Management Service)	FCT / #fct-prsp

Team	Leader	Key contacts	Jira / Slack
Enterprise Notification Platform	Sanjay Iyer (Director)	Melissa Grant (EM); Paul Henderson (Onboarding)	ENS / #ens-onboarding
Treasury Data & Analytics (TDIP)	Wei Zhang (Director)	Carlos Mendes (EM, Data Eng.); Dr. Aisha Rahman (Lead Data Scientist)	TDA / #tdip-help

3.1 Partner functions (first and second line)

Function	Accountable	Contacts for product / design reviews
Financial Crimes Compliance (FCC)	Catherine Doyle	Jordan Ellis (FCC Policy & Advisory); Michael Tran (OFAC); Rebecca Stone (FIU)
Model Risk Management (MRM)	Jonathan Price	Sophie Laurent (Validation Lead, Treasury & Ops models)
Payment Operations	Denise Carter	Luis Ramirez (Wire Investigations); Tanya Brooks (Wire Room)
Commercial Service Center	Kim Nguyen	Treasury Support scripts and training
Legal - Treasury & Payments	Andrew Feldman	Patricia Moore (Chair, Disclosure Review Committee)
Information Security - Digital Channels	Farah Ali	Design reviews (SECREV)
Privacy Office & Data Governance	Rachel Goldberg	Ethan Brooks (Data Governance Lead, Commercial Bank)
Deposits Data Ownership	Mark Sullivan	Core Deposit Platform datasets (Restricted)

4. System ownership register

Technical owner = accountable engineering manager/lead. Business owner = accountable product or data owner. Support tier: T1 = 24x7 critical, T2 = business hours + on-call, T3 = business hours.

System ID	System	Owning team	Technical owner	Business owner	Tier
SYS-CBO	Crestline Business Online - Wire Center module	CBO Wire Center squad	Tom Becker / Lucas Ferreira	Marcus Chen	T1
SYS-CBO-SPS	CBO Status Projection Service	CBO Platform	Arjun Mehta	Marcus Chen	T2
SYS-CES	Commercial Entitlements Service	CBO Platform	Nadia Haddad	Marcus Chen	T1
SYS-PPH	PRISM Payments Hub (Volaris 9.4)	Payments Hub Engineering	Kevin O'Brien / Sunita Rao	Laura Kim	T1
SYS-PNG-FFC	Payment Network Gateway - Fedwire Funds Connector	PNE	Brian Walsh / Chen Wei	Laura Kim	T1
SYS-PNG-GPI	Payment Network Gateway - Swift Alliance & gpi Connector	PNE	Raj Malhotra / Tomasz Nowak	Laura Kim	T1
SYS-PRSP-HMS	PRSP - Hold Management Service	FCT	Grace Mensah / Daniel Kowalski	Rebecca Stone (FIU)	T1
SYS-PRSP-SEN	PRSP - Sentinel Fraud Scoring (vendor)	FCT	Grace Mensah	Fraud Strategy (FCC)	T1
SYS-PRSP-SSC	PRSP - SanctionScreen	FCT	Grace Mensah	Michael Tran	T1
SYS-ENS	Enterprise Notification Service	Enterprise Notification Platform	Melissa Grant	Sanjay Iyer	T2
SYS-TDIP	Treasury Data & Insights Platform	TDIP	Carlos Mendes	Laura Kim (payment data)	T2
SYS-CDP	Core Deposit Platform	Deposits Technology	(Deposits Tech)	Mark Sullivan	T1
SYS-IWB	Investigations Workbench	Payment Operations Tech	(Ops Tech)	Luis Ramirez	T2

5. Governance forums

Forum	Cadence	Submission lead time	Notes
Payments Architecture Review Board (ARB)	Monthly, 2nd Tuesday	10 business days	Required for new client-facing integrations to payment systems. Upcoming: 2026-11-10, 2026-12-08
Payments Platform Demand Board	Monthly	Request by prior month-end	Prioritizes PPH roadmap; next session 2026-10-21
FCT Change Advisory	Bi-weekly	5 business days	FCC sign-off required for hold/screening changes; year-end freeze Dec-15 to Jan-05

Forum	Cadence	Submission lead time	Notes
Disclosure Review Committee (DRC)	Bi-weekly, Thursday	5 business days	Approves client-facing copy, disclaimers and notification templates
MRM Model Inventory & Validation	Continuous (Archer)	Register before development	Tier 2 validation 10-14 weeks plus queue
Privacy Impact Assessment (PIA)	Continuous (OneTrust)	~4 weeks	Required for new uses of client data in client-facing features

6. Engagement routes and planning factors

Use these factors for first-pass sizing of cross-team dependencies. Hours are engineering hours unless stated; factors are calibrated from the last four program increments (PIs).

Team	Planning factor	Intake route / lead time	Capacity note (PI 27.1)
CBO Wire Center squad	1 story point ~ 6.5 hrs; velocity ~42 pts/sprint	Jira CBO; PO prioritization	Q4-2026 ~85% committed
CBO Platform & Entitlements	1 pt ~ 6.5 hrs; ~30 pts/sprint	Jira CBO (Platform); 2-week triage	~70% committed
Payments Hub Engineering	1 pt ~ 8 hrs (vendor platform + regression)	Payments Platform Demand Board; 6-8 weeks to schedule	~90% committed (Nov-2026 address enforcement; FedNow outbound)
Payment Networks Engineering	1 pt ~ 8 hrs	Jira PNG; change windows Sat 22:00-02:00 ET	~80% committed
GTSI	1 pt ~ 7 hrs	Jira GTSI; quarterly roadmap intake	~75% committed
Financial Crimes Technology	1 pt ~ 8 hrs + 20% independent compliance testing	FCT Change Advisory + FCC sign-off	~80% committed
Enterprise Notification Platform	~12 ENS hrs per new event type	ServiceNow 'ENS Event Onboarding'; SLA 6 weeks	Per-entity subscriptions 2027-H1
TDIP	1 pt ~ 6 hrs	Jira TDA; Collibra DAR (Restricted: +15 business days)	~75% committed
Model Risk Management	EUA registration ~16 hrs; Tier 2 validation 160-240 validator hrs	Archer; Tier 2 10-14 weeks + queue	Queue ~6 weeks (Q4-2026)
FCC Policy & Advisory	~10 business days per review	FCC Advisory intake	-
Information Security (SECREV)	Design review ~24-40 hrs	SLA 3 weeks	-
Payment Operations	~40 hrs per new client-facing workflow (SOPs)	Ops Readiness Review 4 weeks pre go-live	-
Commercial Service Center	~24 hrs scripts/training	Readiness checklist 3 weeks pre go-live	-

7. Program increment calendar

PI	Dates	Planning event
PI 26.4	2026-09-07 to 2026-11-27	Complete
PI 27.1	2026-12-01 to 2027-03-05	PI planning 2026-11-17 / 18 (dependency asks due 2026-11-06)
PI 27.2	2027-03-15 to 2027-06-11	PI planning 2027-03-02 / 03

8. Escalation

Dependency conflicts that cannot be resolved between engineering managers escalate to the respective Directors, then to the PTT Leadership Team (weekly, Mondays). Compliance or policy interpretation questions route to FCC Policy & Advisory (Jordan Ellis) or the Privacy Office (Ethan Brooks) and are not decided by engineering teams.
