

Customer Communication of Payment Status, Holds & Exceptions Standard

Enterprise standard governing what may and may not be communicated to clients about payment status, holds and exceptions

Document ID	POL-FCC-014
Version / Status	3.2 / Approved - Enterprise Policy Committee
Document owner	Catherine Doyle, EVP, Chief BSA/AML Officer; co-owner Michael Tran, SVP, OFAC/Sanctions Officer
Approver(s)	Enterprise Policy Committee (2026-02-12)
Effective / Last reviewed	Effective 2026-03-01; next review 2027-03-01
Classification	INTERNAL - CONFIDENTIAL
Policy contact	Jordan Ellis, VP, FCC Policy & Advisory
Related documents	PRSP-HMS-3.4; DUS-07; MRM-POL-02; SEC-STD-22; CTRL-PAY-018 / -031 / -040

1. Purpose

This Standard defines how CNB communicates the status of client payments, holds and exceptions through any client-facing channel. It protects the confidentiality of suspicious activity reporting, prevents disclosure that could aid fraud or sanctions evasion, and ensures status representations are accurate and not misleading.

2. Scope

All client-facing channels and artifacts: Crestline Business Online (web and mobile), APIs and host-to-host status files, notifications (email, SMS, push, in-app), Commercial Service Center scripts, relationship manager communications, downloadable reports and any content shared with third parties at a client's request.

3. Regulatory and legal basis

Source	Relevance
31 U.S.C. 5318(g)(2); 31 CFR 1020.320(e)	Confidentiality of Suspicious Activity Reports - no disclosure of a SAR or information that would reveal its existence
31 CFR Part 501 (incl. 501.603, 501.604)	OFAC blocking and reject reporting; sanctions outcomes communicated only per Sanctions Operations Procedure
UCC Article 4A; Regulation J (12 CFR 210, Subpart B)	Acceptance, settlement finality and completion of funds transfers
FFIEC 'Authentication and Access to Financial Institution Services and Systems' (2021)	Risk-based authentication for high-risk actions
Section 5 of the FTC Act (UDAP)	Representations to clients must not be unfair or deceptive
CNB Fair Representation Standard (FRS-02)	Accuracy of client-facing estimates and status language

4. Disclosure tiers

Tier	Name	Client may see	Examples
P	Public status	Factual processing status and timing	Scheduled for next business day (after cutoff)
C	Client-actionable	Approved explanation and permitted client action	Possible duplicate; limit exceeded; funds pending
G	Generic review	Generic 'being reviewed' message only	Operations manual review
R	Restricted	Generic 'being reviewed' message only - identical to tier G	Fraud, account takeover, sanctions, AML, legal holds

5. Requirements

5.1 Holds

1. Restricted (R) reasons, hold codes, scores, list names, match details, analyst notes or queue names must never be displayed, transmitted or implied in any client-facing channel.
2. **Indistinguishability:** tier R and tier G holds must be presented identically - same label, icon, color, copy, actions and absence of timing information - so that a client cannot infer the nature of a review from the presentation.
3. No estimated release time, likelihood of release or 'next steps' timing may be shown for tier G or R holds (CTRL-PAY-040).
4. Client actions on holds are permitted only where Appendix A allows, using step-up authentication of an entitled user.
5. Callback verification (HRC-02) cannot be satisfied by any confirmation inside the channel that initiated the payment (CTRL-PAY-018). The channel may display that a callback is pending and allow the client to request a callback.
6. Sanctions blocks/rejects are communicated only by Sanctions Operations per procedure; channels show tier G/R presentation.

5.2 Status terminology

Term	Permitted only when	Not permitted
Sent / In transit	Released and transmitted to the payment network	Before network transmission
Delivered to beneficiary's bank (domestic)	Fedwire acceptance received (pacs.002 with OMAD)	At release or transmission
Completed / Settled	Domestic: Fedwire acceptance received. International: gpi ACCC received from the beneficiary bank	On release, transmission, Swift network ACK or ACSP statuses
Credited to beneficiary	gpi ACCC received	Domestic Fedwire (beneficiary credit is not reported); any non-ACCC status
Tracking unavailable beyond [bank]	Last gpi status ACSP/G001	Showing 'in transit' with estimates after G001
Returned + reason	Return received; ISO reason from returning bank may be shown (e.g., AC04 Account closed)	Returns initiated by CNB for financial-crimes reasons (show 'Returned' only)

5.3 International (gpi) data

For the client's own payments, channels may display agent names, countries, timestamps and deducted charges reported via gpi. Where tracking ends at a non-gpi agent, the presentation must state that tracking is unavailable beyond that point.

5.4 Sharing with third parties

Status shared with a beneficiary or other third party at the client's request is limited to: amount, currency, value date, status milestones and a reference (cboRef or UETR). It must exclude account numbers, fees, the originator's internal references and any hold information. Links must expire within 7 days, must be enabled by a client administrator, and require InfoSec (SEC-STD-22) and Privacy approval of the design.

5.5 Predictive and insight statements

Client-facing insights (for example typical completion times or estimated delivery) must: (a) use only the requesting client's own data, or aggregated cohorts meeting DUS-07 Section 5; (b) be registered with Model Risk Management where MRM-POL-02 applies; (c) carry a DRC-approved disclaimer; (d) never be shown for payments in tier G or R hold.

6. Approvals

New or changed client-facing status, hold or exception experiences require FCC Policy & Advisory review before build commitment and DRC approval of final copy. Exceptions require Chief BSA/AML Officer approval.

Appendix A - Hold code mapping

HRC	Mnemonic	Tier	Copy key	Client action permitted
HRC-01	DUP_SUSPECT	C	COPY-HOLD-DUP-01	Yes - digital attestation (confirm / cancel) with step-up auth (CTRL-PAY-031)
HRC-02	CALLBACK_REQUIRED	C	COPY-HOLD-CB-01	No in-channel confirmation. Client may request callback; verification only via callback to contact on file (CTRL-PAY-018)
HRC-03	LIMIT_EXCEEDED	C	COPY-HOLD-LIM-01	Client admin secondary approval or RM limit request

HRC	Mnemonic	Tier	Copy key	Client action permitted
HRC-04	CUTOFF_WAREHOUSED	P	COPY-STAT-WH-01	None needed (informational)
HRC-05	FUNDS_PENDING	C	COPY-HOLD-FUND-01	Fund account; auto-retry until 5:30 p.m. ET
HRC-06	REPAIR_REQUIRED	C	COPY-HOLD-RPR-01	Cancel and resubmit with corrected beneficiary data (no in-place edit)
HRC-07	FRAUD_MODEL_HIGH	R	COPY-HOLD-GEN-01	None
HRC-08	ATO_SUSPECT	R	COPY-HOLD-GEN-01	None
HRC-09	SANCTIONS_REVIEW	R	COPY-HOLD-GEN-01	None
HRC-10	AML_REVIEW	R	COPY-HOLD-GEN-01	None
HRC-11	LEGAL_HOLD	R	COPY-HOLD-GEN-01	None
HRC-12	OPS_MANUAL_REVIEW	G	COPY-HOLD-GEN-01	None

Appendix B - Approved copy library (excerpt)

Copy key	Approved text
COPY-HOLD-GEN-01	This wire is being reviewed. No action is needed from you at this time. For questions, contact Treasury Support.
COPY-HOLD-DUP-01	This wire appears similar to another recent wire. Please confirm whether you intend to send both.
COPY-HOLD-CB-01	We will contact an authorized person at your company to verify this wire. You can request a call back.
COPY-HOLD-LIM-01	This wire exceeds a limit on your account. An administrator can approve it or contact your relationship manager.
COPY-HOLD-FUND-01	This wire is waiting for available funds. It will be retried until 5:30 p.m. ET.
COPY-HOLD-RPR-01	Additional beneficiary information is required. Please cancel and resubmit this wire with complete details.
COPY-STAT-WH-01	This wire is scheduled for the next business day.

Appendix C - Prohibited terms in client-facing copy

fraud; suspicious; sanctions; OFAC; watch list; screening hit; AML; compliance review; investigation; flagged; security alert; risk score; law enforcement; blocked (except Sanctions Operations correspondence).
